DERMAPLANE CONSENT FORM**

NAME: _____ **DATE:** __/__/__

Dermaplane is a technical procedure utilized by a skin care specialist to gently exfoliate the stratum corneum of the facial skin. The provider will gently and methodically scrape the dead skin cells with a "one direction" scraping method. Once the face is fully scraped, the following steps will be done to enhance the results revealing a very soft, smooth and pink glowing skin.

1. COOL COMPRESSES TO THE SKIN
2. BLOT DRYING OF THE SKIN
3. MOISTURIZER OR CHEMICAL PEEL
4. SUNSCREEN WITH SPF 30 OR HIGHER APPLIED TO FACE

This is a non-invasive cosmetic aesthetic procedure that is intended for all anti-aging skin care concerns such as brown spots, rough texture, hirsutism (fine hair on face), dry skin to name a few, but are not inclusive.

THIS PROCEDURE WOULD BEST BENEFIT THE WOMAN OR MAN WHO IS SEEKING COSMETIC RESULTS WITHOUT ANY DOWN TIME.
